- 1 Composition Book
- Highlighter

Texas History:

- Map Pencils

Math:

- **Boys**—3 boxes of pencils
- **Girls**--computer colored paper
- 2 high lighters
- 1 composition notebook
- 2 glue sticks

Math Note to Parents:

All incoming 7th graders will benefit from practicing their multiplication facts (through 12 x 12) over the summer months. This can be done on paper flashcards (inexpensive at the Dollar Store) or on numerous free downloadable apps for cell phones.

Weakness in math facts makes all math work so much harder! Practice for 10 minutes daily will make a difference. If multiplication facts are mastered, start on division facts!

Math Apps:

- Multiplication Tables Game (Android)
- Math Ninja-Times Table (Android)
- Multiplication Flash Card Game (iTunes)
- Multiplication Flash Cards! (iTunes)
